Recommendations

Moving foward, I recommend phasing out cuisines that generate no sales and investing in scaling chains like Domino's, which shows consistent high revenue with relatively few locations. Pizzas far exceeds other cuisines in the total number of orders, but are only offered at 2 locations of our 5 best perfoming restuarants. We should consider drop Asian, idonesian bakery, Use Code JUMBO3... Combo, Maharaashtrian continental, Korean Gujarati,Italian hyderabadi,Maharashtrian Ice Cream,Pan-Asian keral,American Mediterranean,Salads Mexican,european Snacks,Sindhi Tandoor,American. Domino's Pizza, KFC, Baskin Robins, and kwality walls frozen and ice cream should be expanded upon because they are the leading restaurants in orders.
